^t Department of Acute Brain Injury; Lab. of Epilepsy and Therapeutic Strategies, Istituto di Ricerche Farmacologiche Mario Negri IRCCS, Milan, Italy

The publisher notes the paper entitled "Taking action on climate change: Testimonials and position statement from the International League Against Epilepsy Climate Change Commission" describes the experiences and intentions of the Commission, and is not a formal position statement of the International League Against Epilepsy itself. This was noted in the published paper in the Declaration of Competing

Interest, which stated 'This report was written by experts selected by the International League Against Epilepsy (ILAE). Opinions expressed by the authors, however, do not necessarily represent the policy or position of the ILAE.'

The publisher would like to apologise for any inconvenience caused.
